## PROJECTS

### 2023 • Shree Krishna Dairy

Shree Krishna Dairy is a web application being built to track cash transactions made in a local dairy shop. It tracks the purchase and payment of the quantity of products purchased by registered or unknown customers.

### 2021-2022 • Natours

I constructed a tour booking platform where a user can browse different tours along with their reviews. Users can book tours through stripe Dev API. Users can update their account information and view booked tours. The server is implemented in Node.js and hosted via Netlify. The database is implemented in MongoDB Atlas and queried with Mongoose. It is server-side rendered website.
